

ERIC GEERTS

Eric Geerts works for Descartes Systems Group as director product management for the maritime products globally. This includes ocean shipment management services, port applications and related electronic messaging, including EU projects such as Cassandra. Descartes is the global leader in providing on-demand, software-as-a-service solutions focused on improving the productivity, performance and security of logistics-intensive businesses.

Prior to joining Descartes in 2010, Eric worked for Porthus as product manager of the Customs compliance and ocean/port applications, helping the company and its customers in the go live of different European and Benelux Customs systems such as NCTS, PLDA, ECS, ICS and EMCS. Over the last 10 years Eric has built a lot of experience in maritime logistics and Customs compliance software, electronic messaging and beyond. Eric has a master degree of commercial engineering with specialization in IT management at the University of Antwerp, Belgium.
